

Change your life,
learn to code.

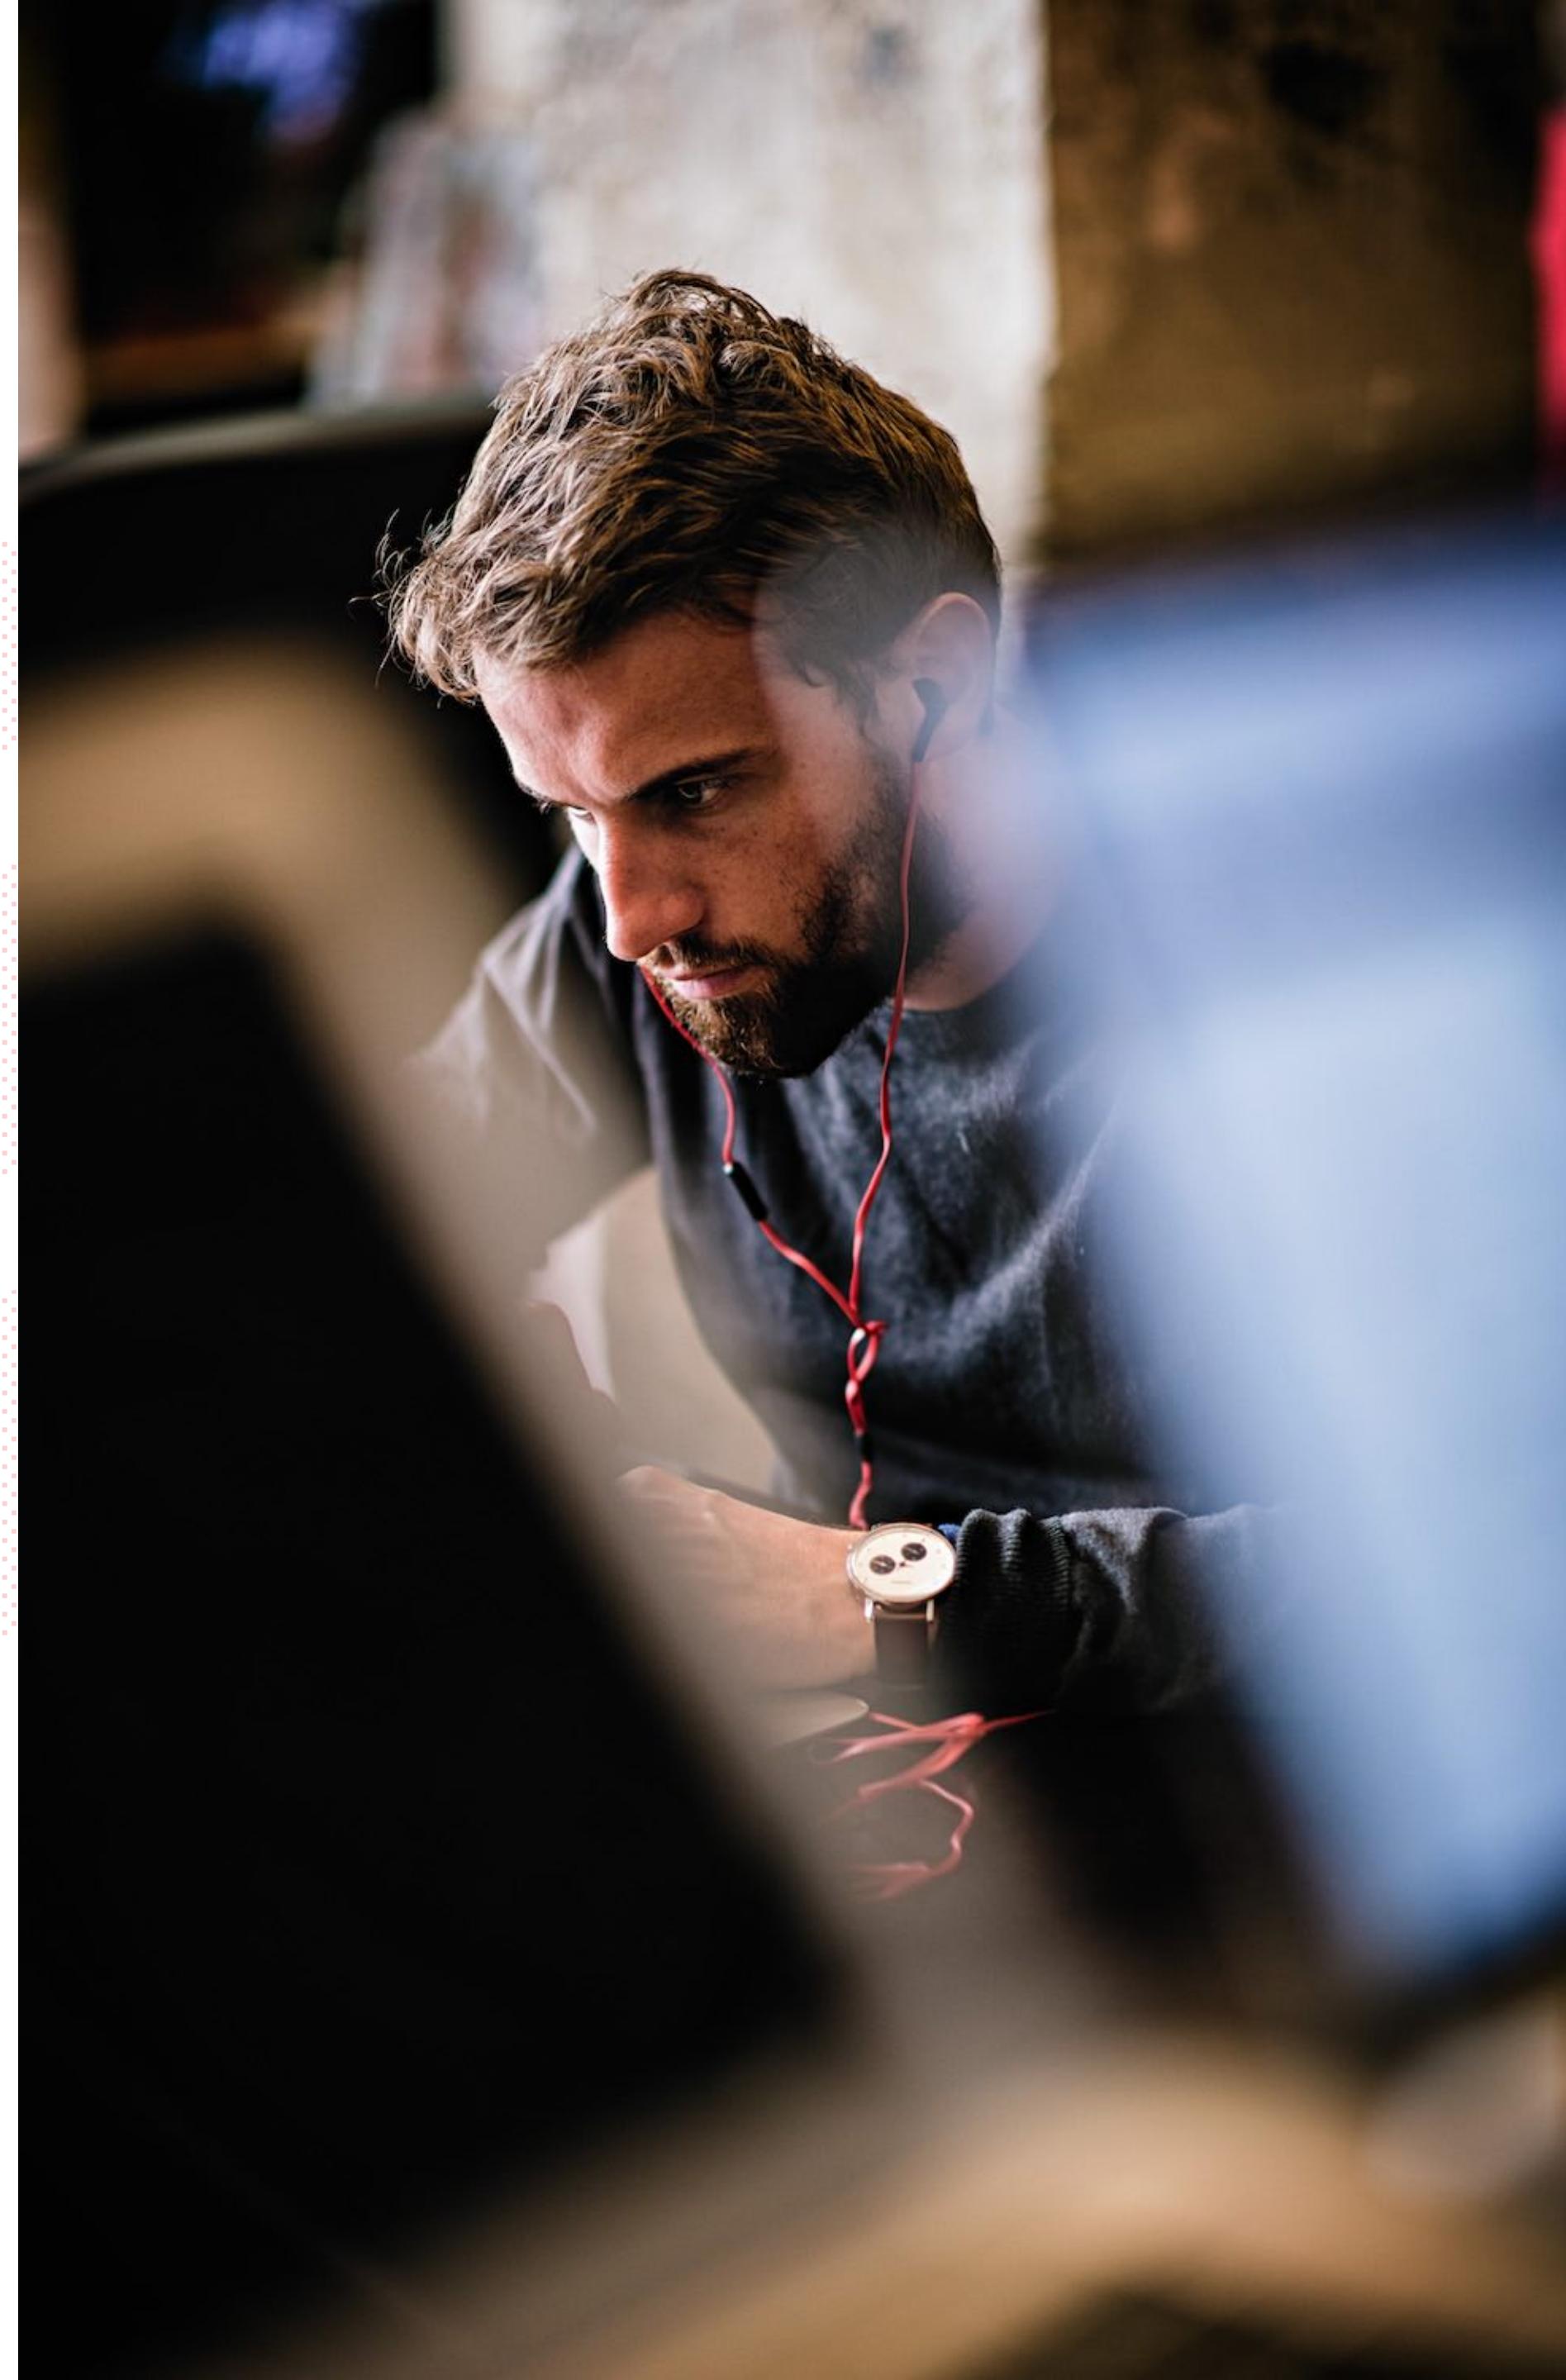

About Le Wagon.

Intensive coding bootcamps providing you with the skills to create great tech products and boost your career.

- ✓ Find a job as a web-developer
- ✓ Become a freelance developer
- ✓ Launch your own business
- ✓ Work in a tech-related role

le wagon

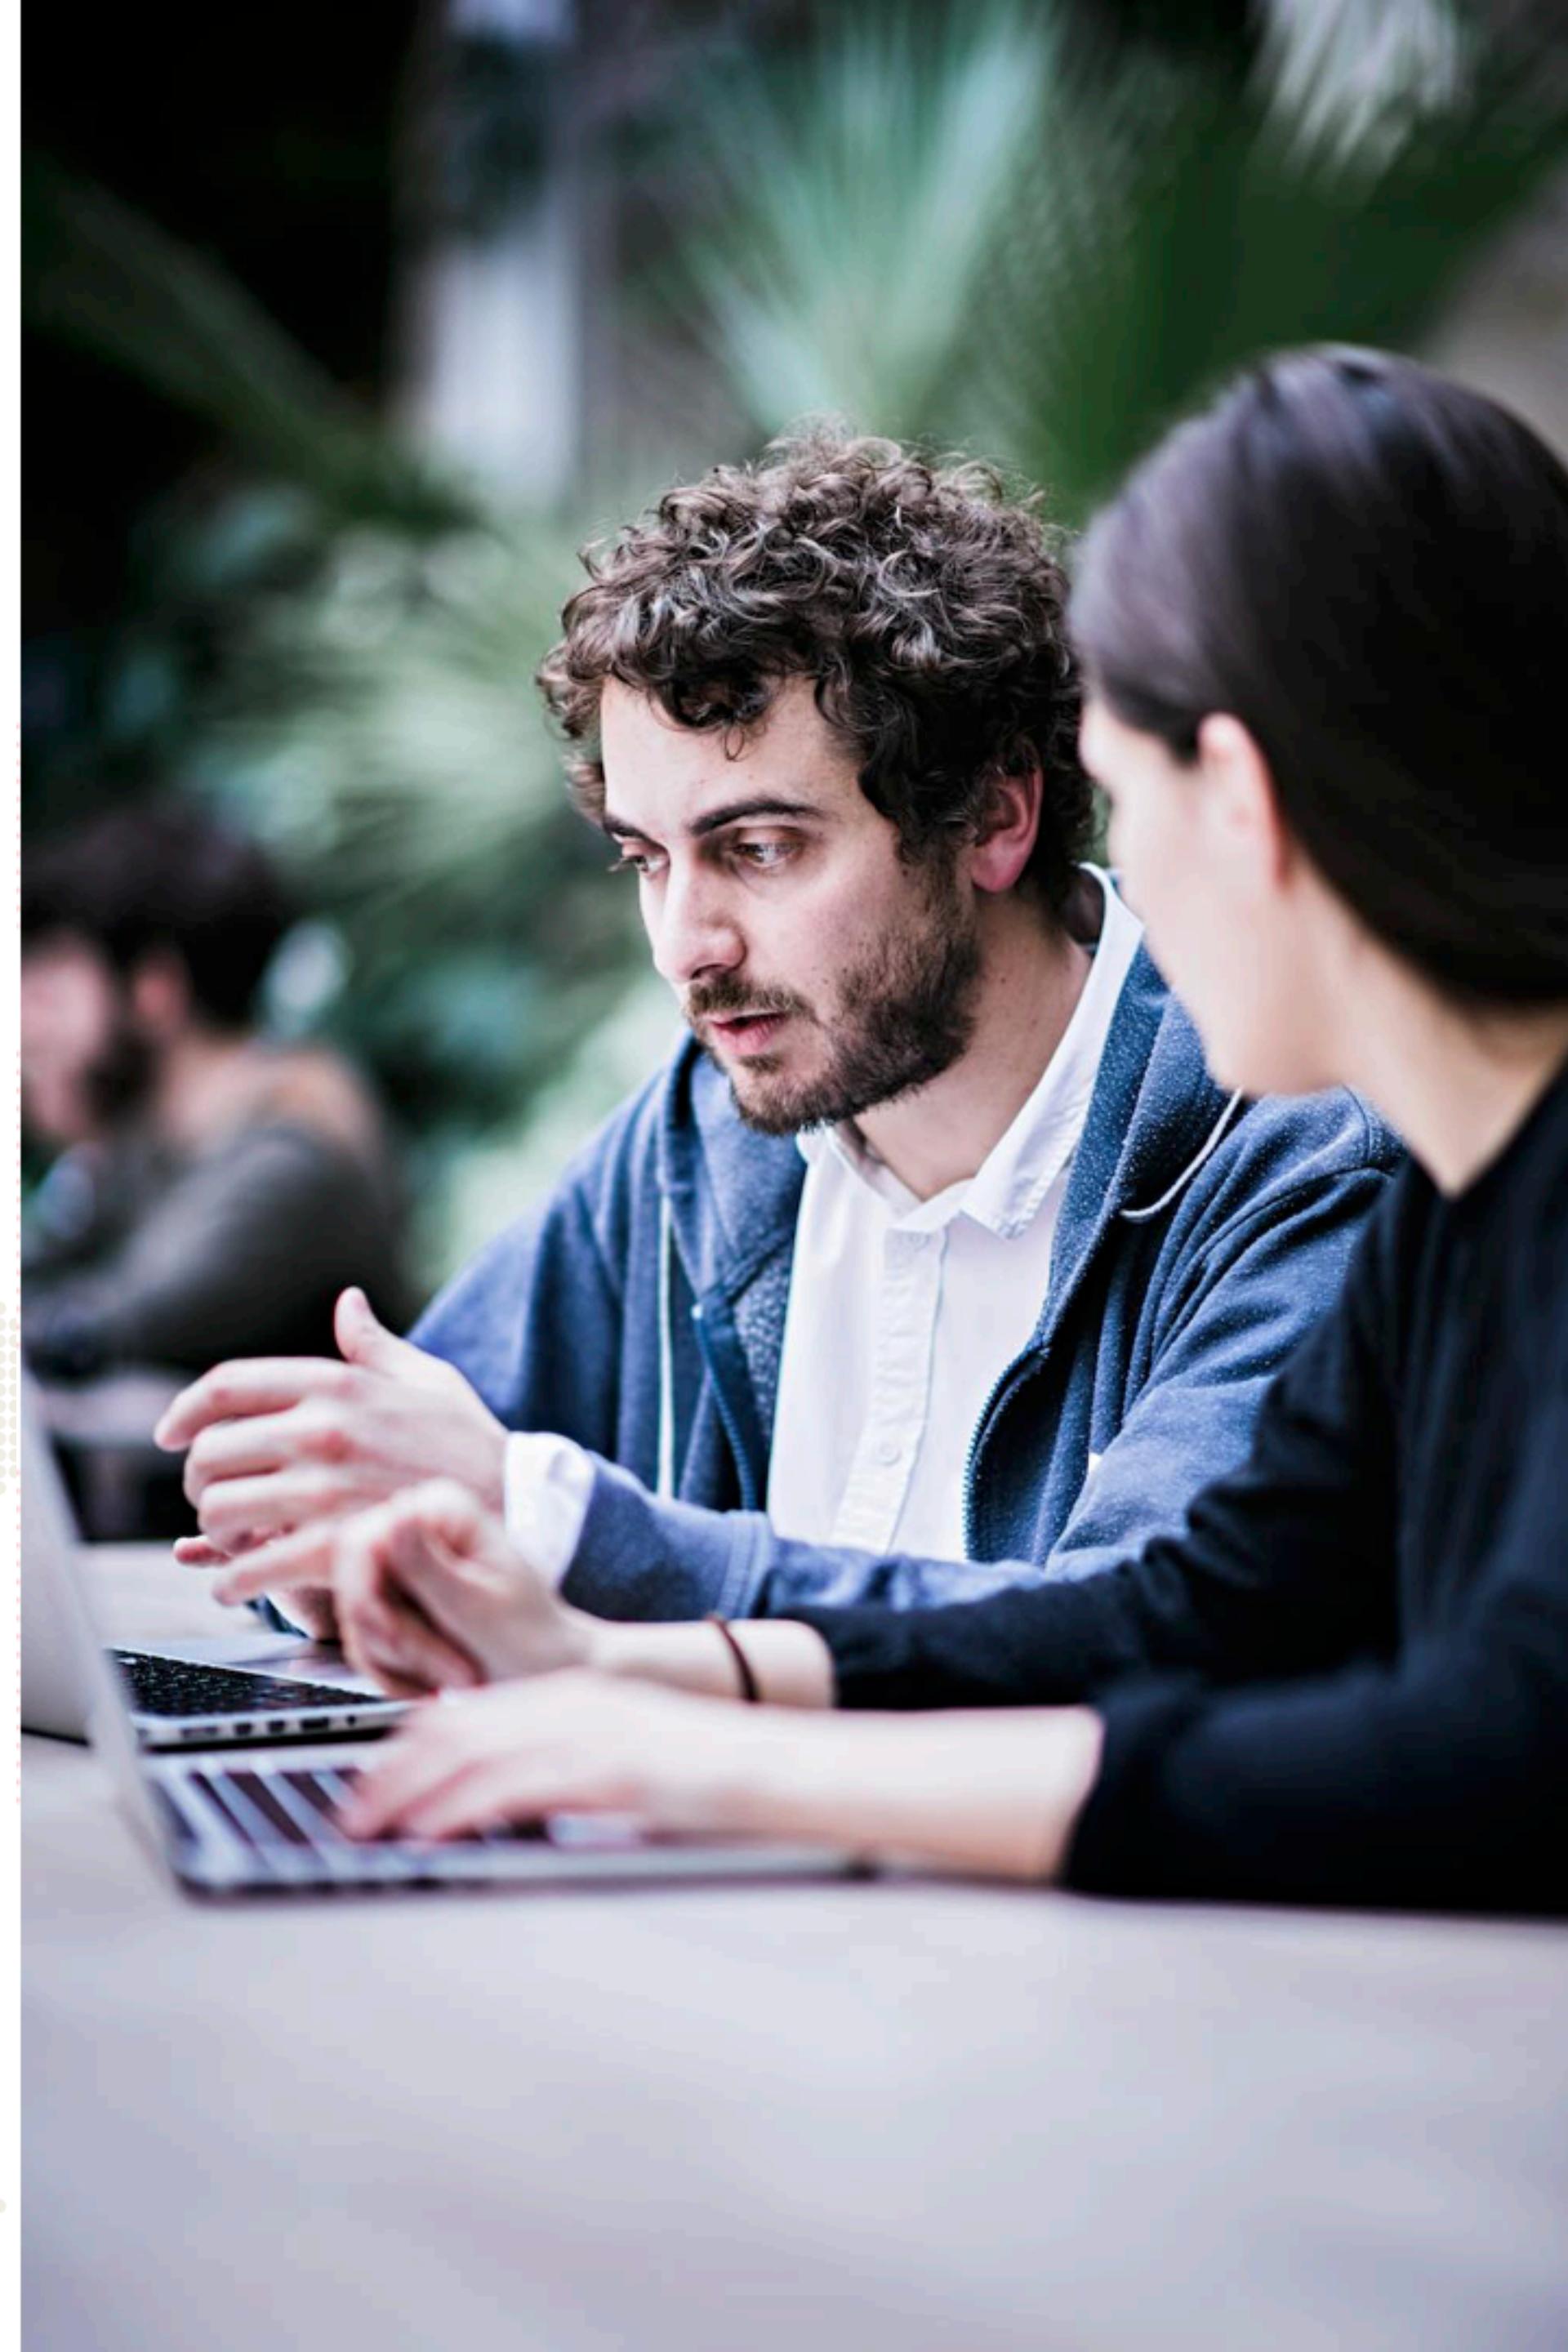

#1 coding bootcamp in the world.

Le Wagon has been ranked as **best coding bootcamp** for the last 3 years.

le wagon

A global **Community.**

Le Wagon has trained over **4,200 students** across **30 cities** worldwide.

le wagon

Bootcamp Outline.

Phase 0 -

40-50 hours

Prework

Get up to speed for the bootcamp

Phase 1 -

3.5 weeks

Foundations

Key concepts of programming, software architecture and databases

Phase 2 -

3.5 weeks

Web-dev

UI Design, Front-end dev and Ruby on rails

Phase 3 -

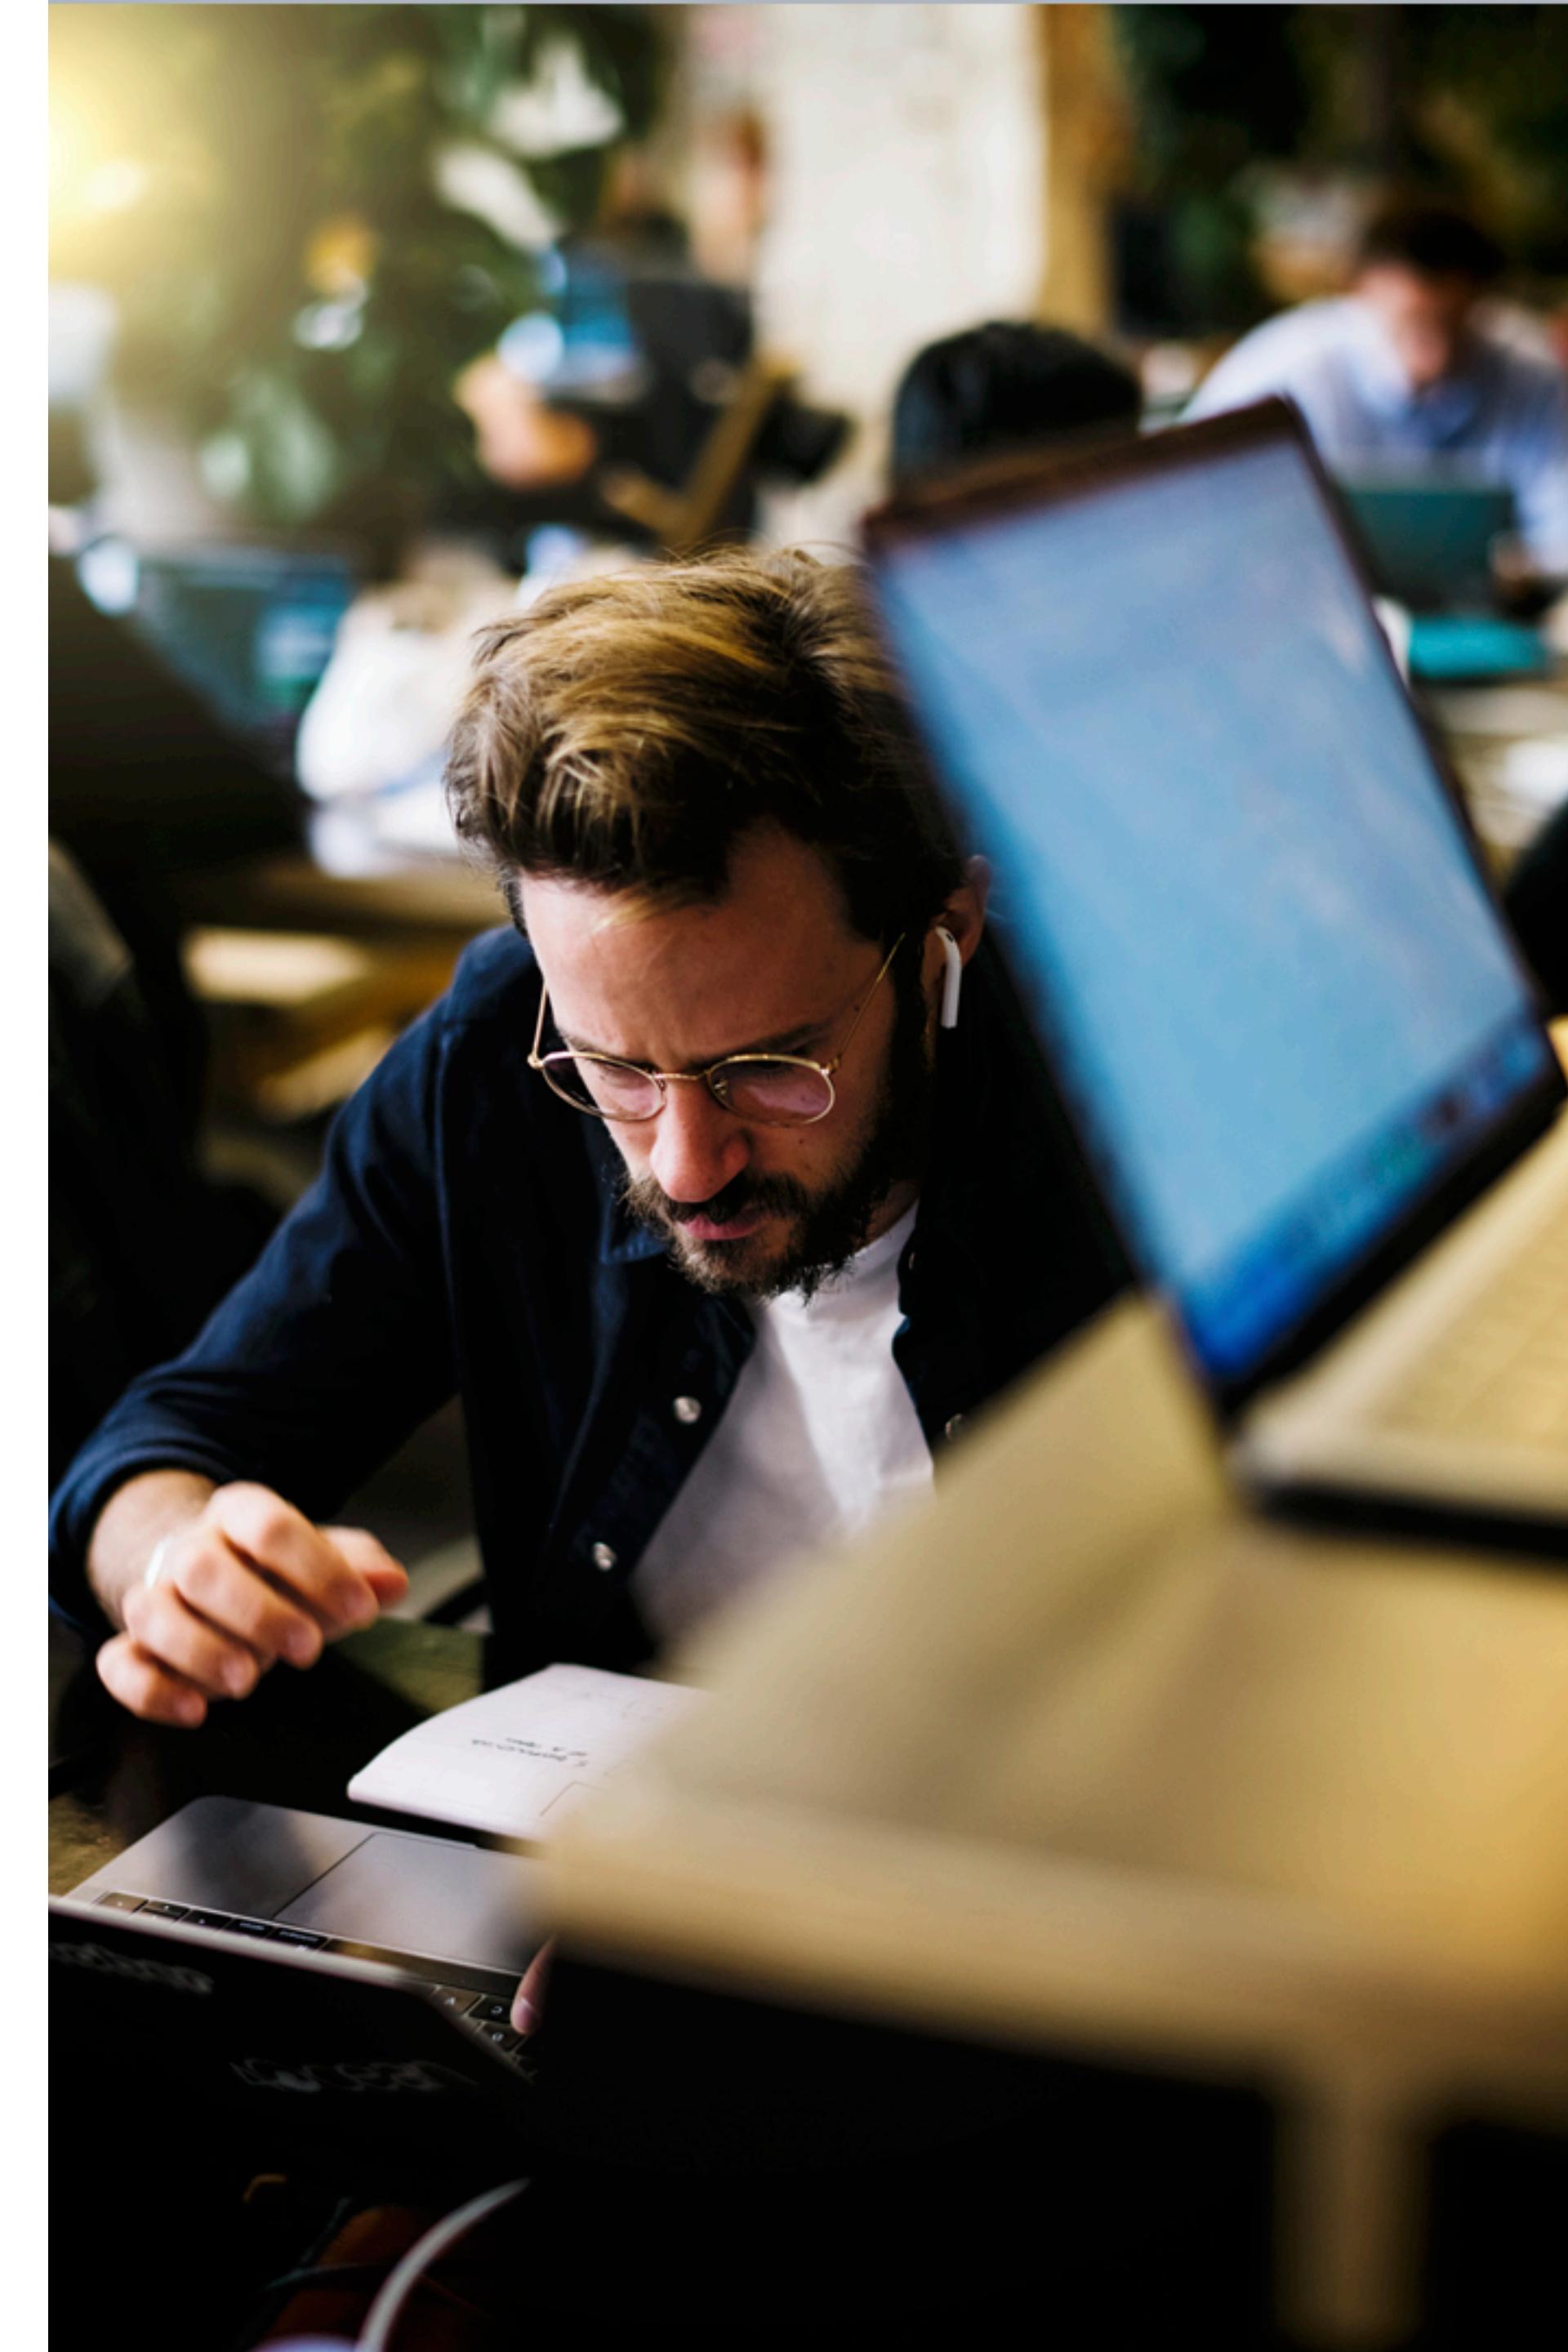

2 weeks

Projects

Invent, design, code, deploy and pitch projects in teams

le wagon

Our Bootcamps.

Full-time program && Part-time program

Getting started

<https://github.com/lucien-george/css-components-boilerplate>

The screenshot shows a GitHub repository page. At the top, there's a dark header bar with the GitHub logo, a search bar, and various navigation links like 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. Below the header, the repository name 'lucien-george / css-components-boilerplate' is displayed in blue. To the right of the name are buttons for 'Unwatch', 'Star', and 'Fork'. A red-orange bar highlights the 'Code' tab. Below the tabs, there's a summary of repository statistics: 20 commits, 2 branches, 0 releases, 1 environment, and 1 contributor. A dropdown menu for the branch 'master' is open. At the bottom of the main content area, there's a list of recent commits:

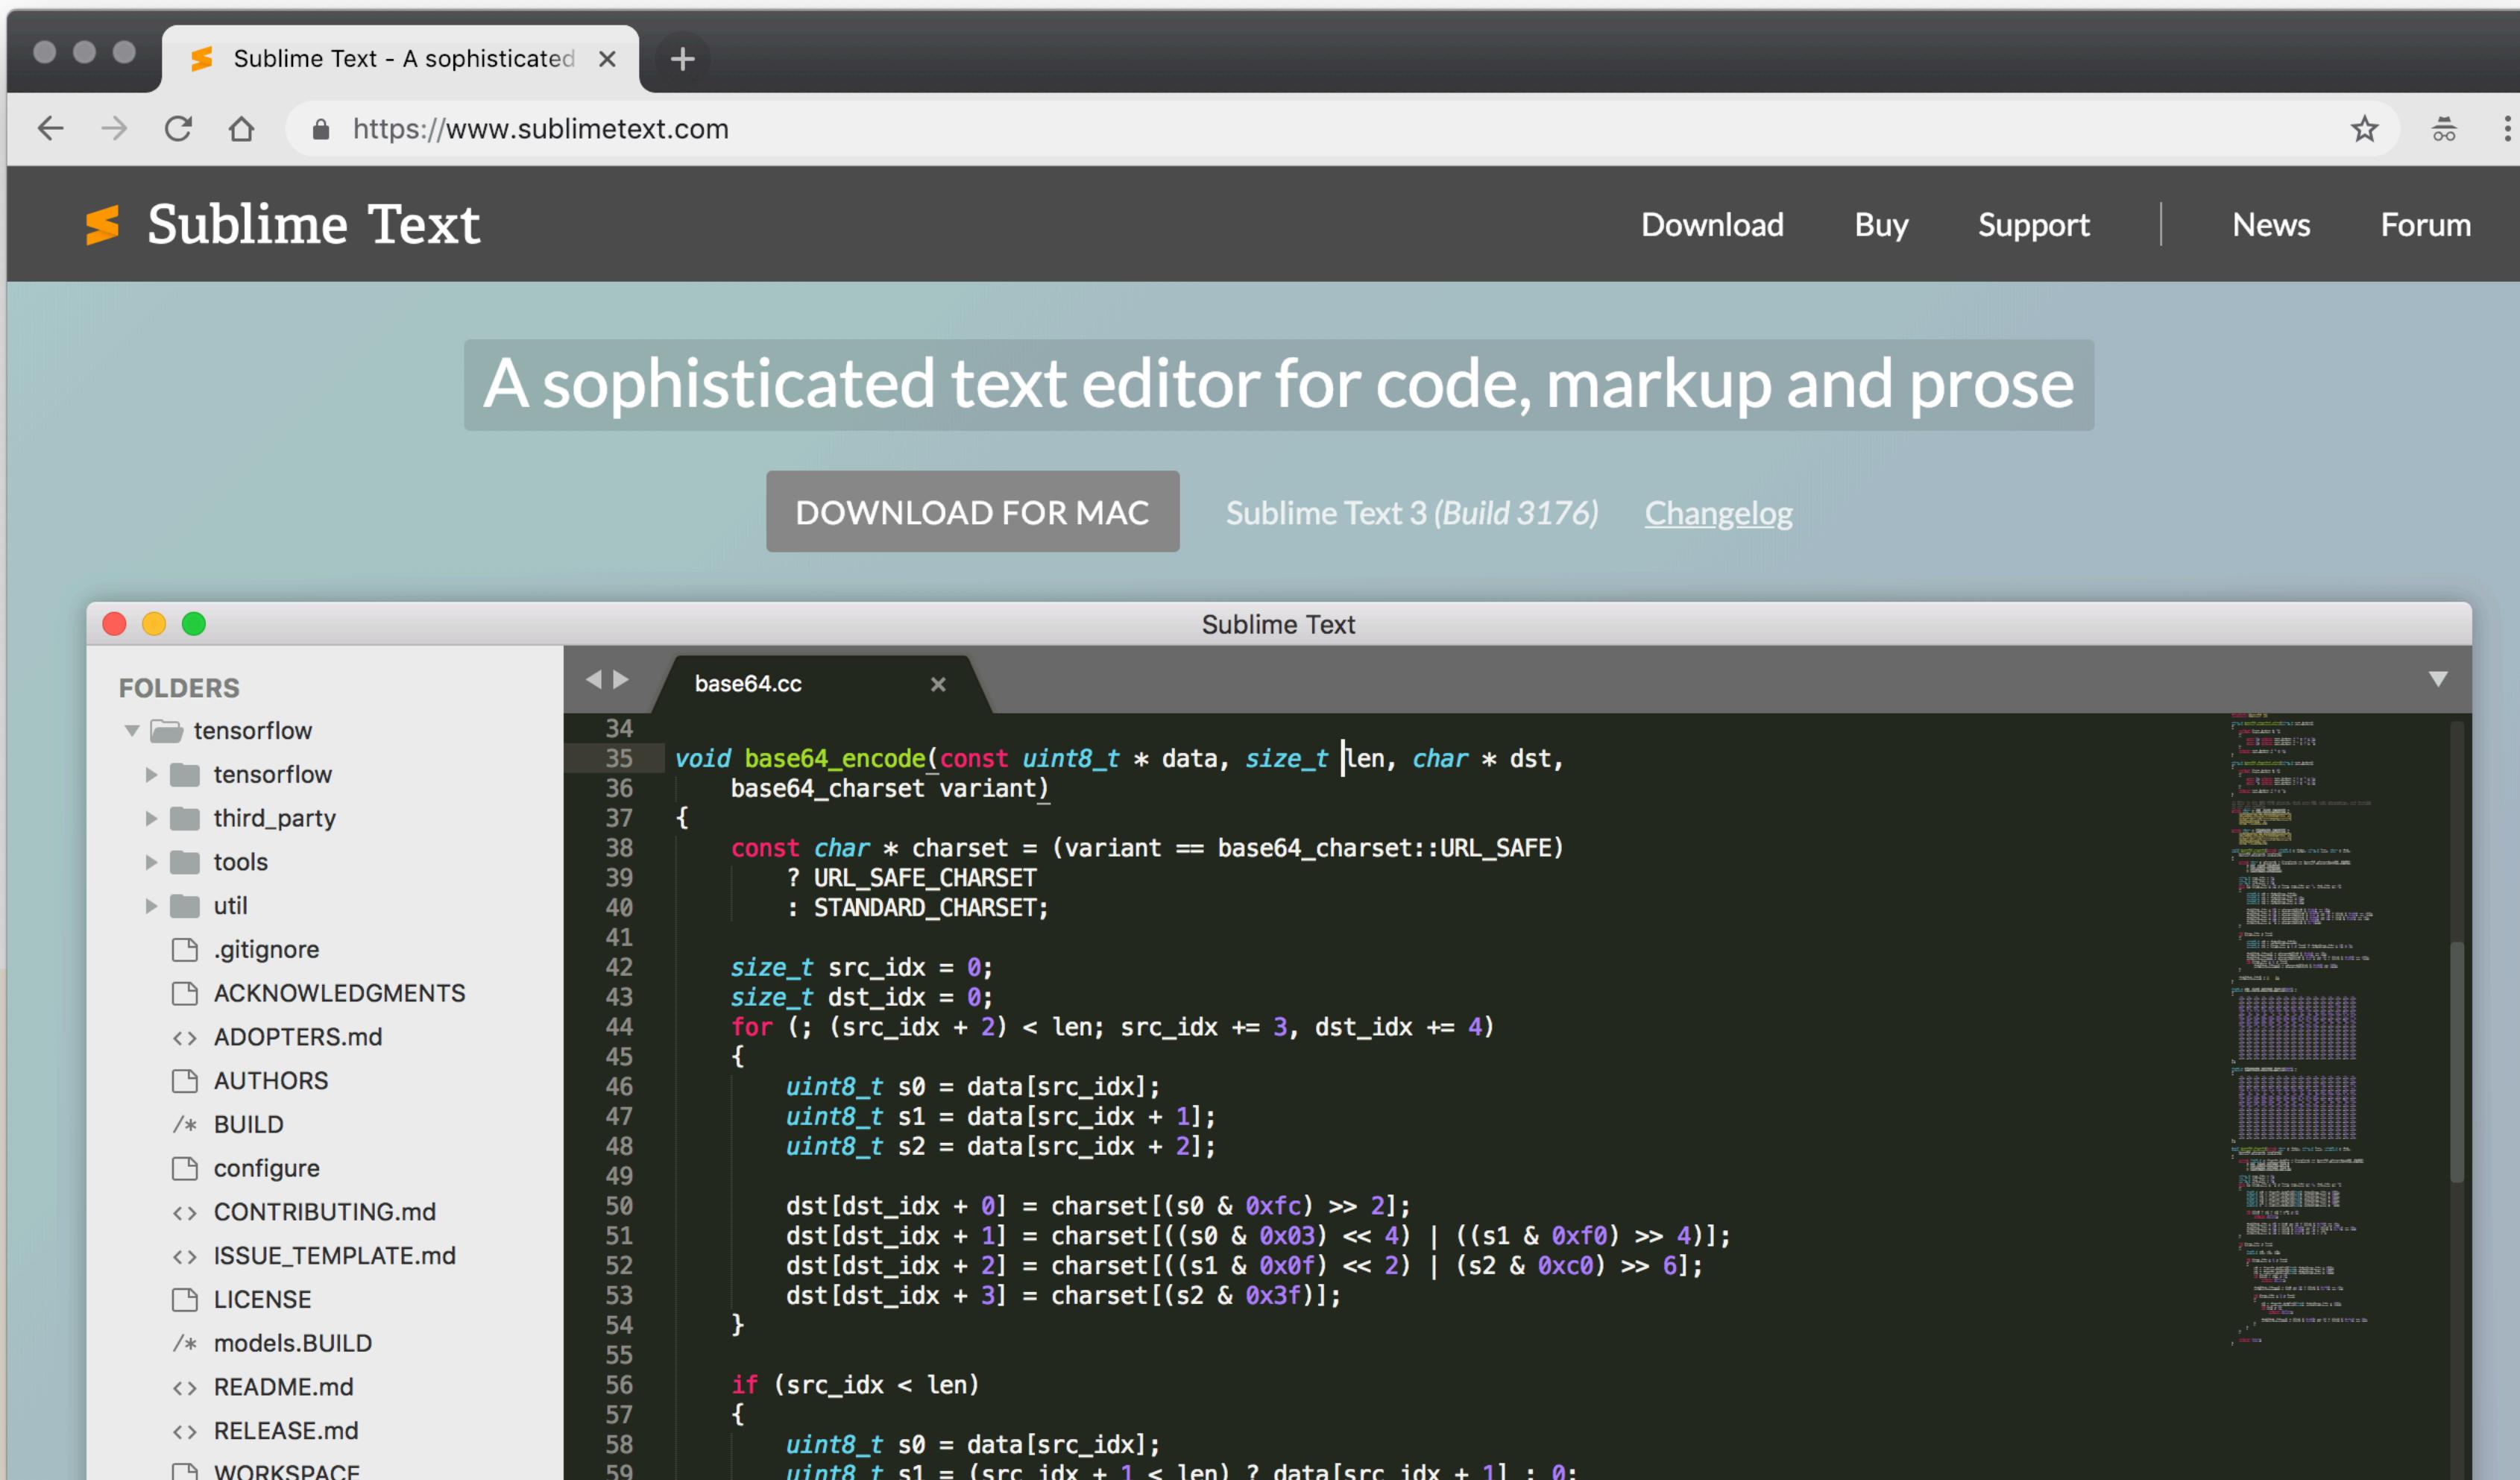

File	Changes	Time
css-components	last changes	12 hours ago
solution	last changes	16 hours ago
README.md	Update README.md	4 days ago
slides.pdf	last changes	2 minutes ago

This screenshot shows the detailed commit history for the 'css-components-boilerplate' repository. It lists individual commits with their author, message, file changes, and timestamp. The commits are ordered from most recent at the bottom to oldest at the top.

Author	Message	File	Time
lucien-george	last changes	README.md	2 minutes ago
lucien-george	last changes	css-components	12 hours ago
lucien-george	last changes	solution	16 hours ago
lucien-george	Update README.md	README.md	4 days ago

Easy CSS Tricks.

Let's start with some easy components

- Avatars
- Buttons
- Banners

Advanced Patterns.

Let's dive into more advanced styling patterns

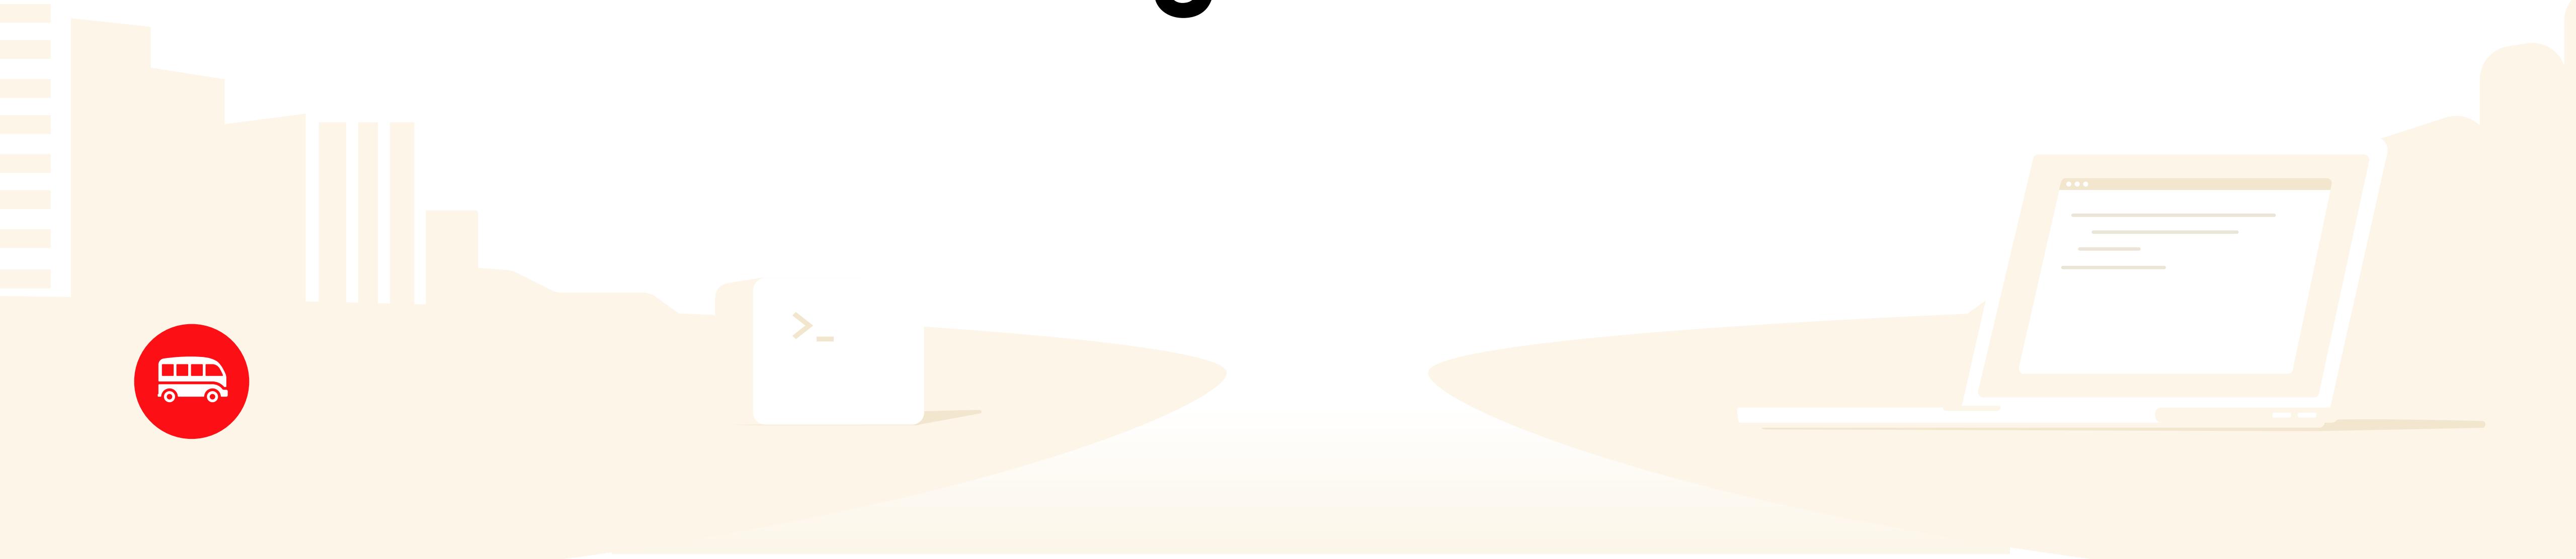

Gradient Filters.

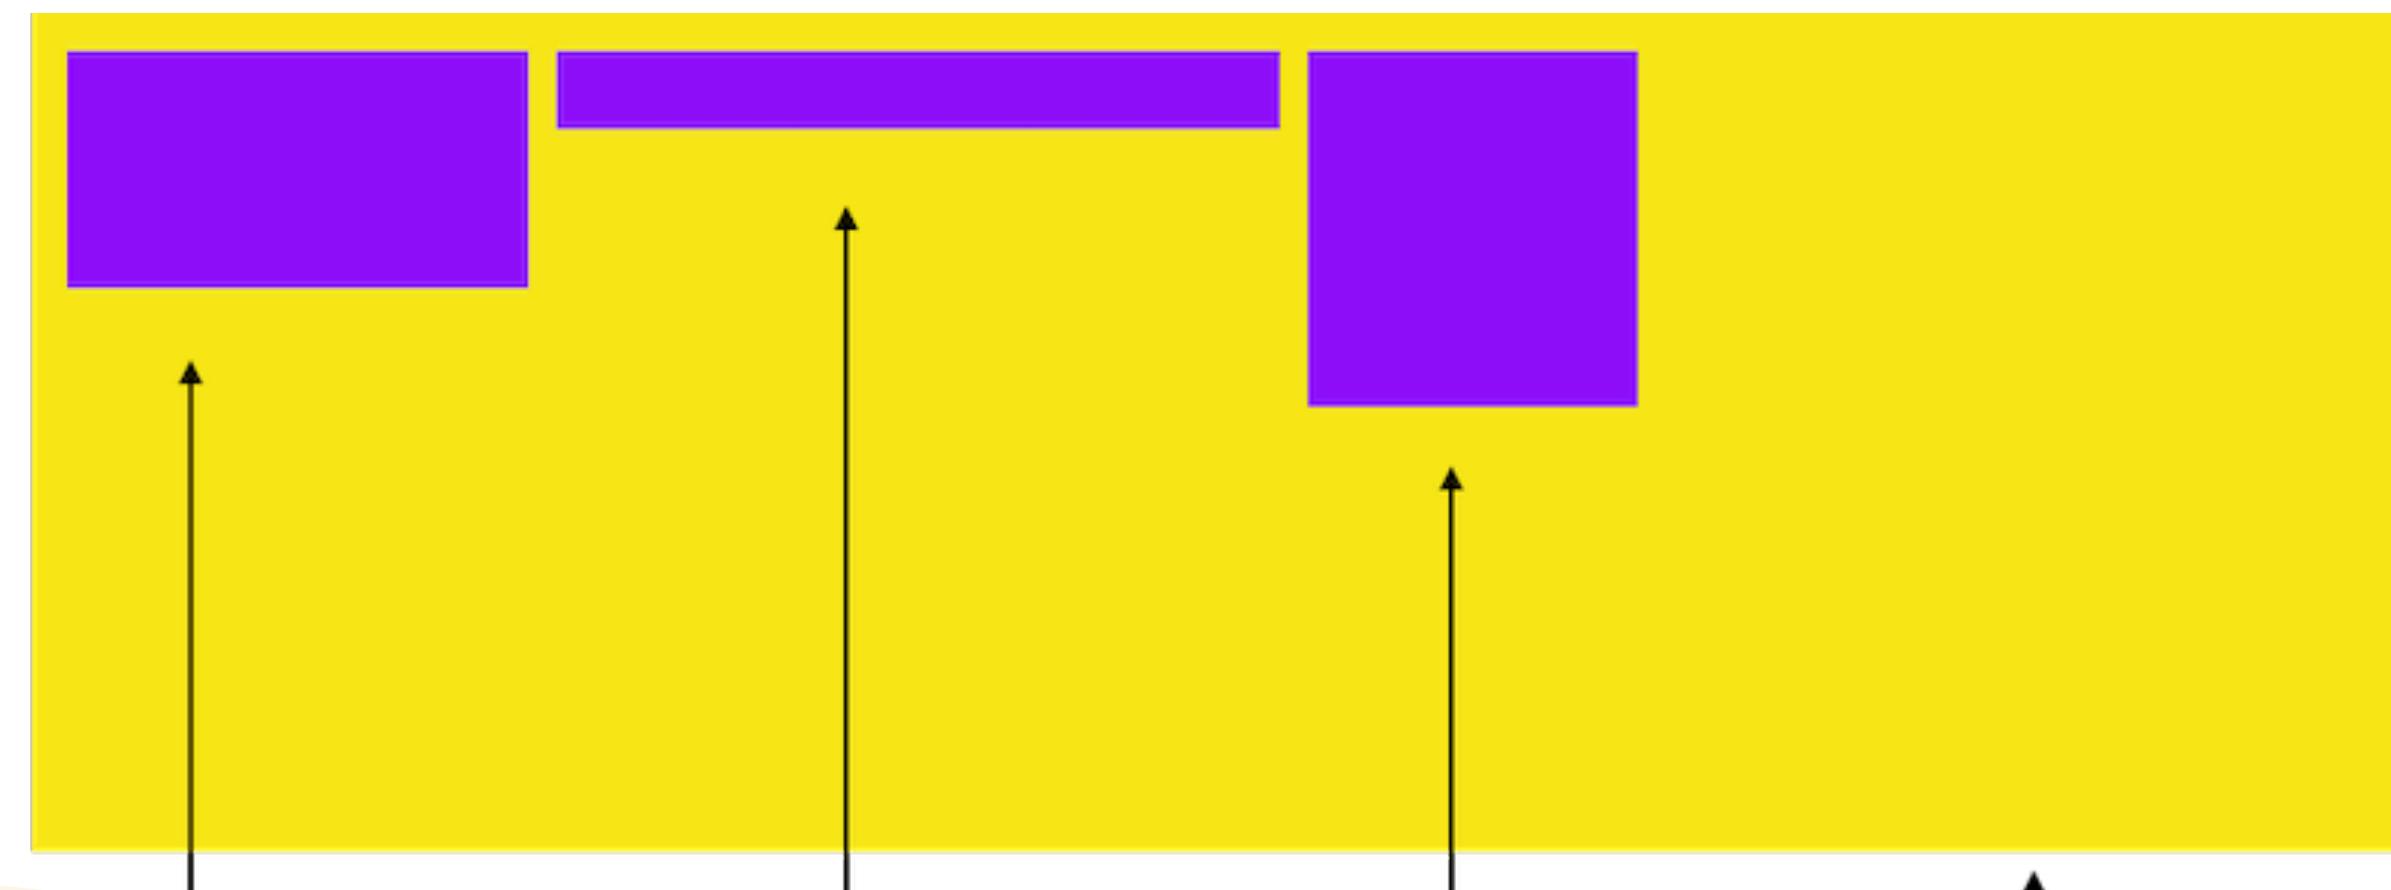

```
.background-image {  
  background-image: linear-gradient(rgba(...),  
  rgba(...)), url('background.png');  
}
```

Using **Flexbox**.

Most of your components are coded
using flexbox

Using Flexbox.

flex item

flex item

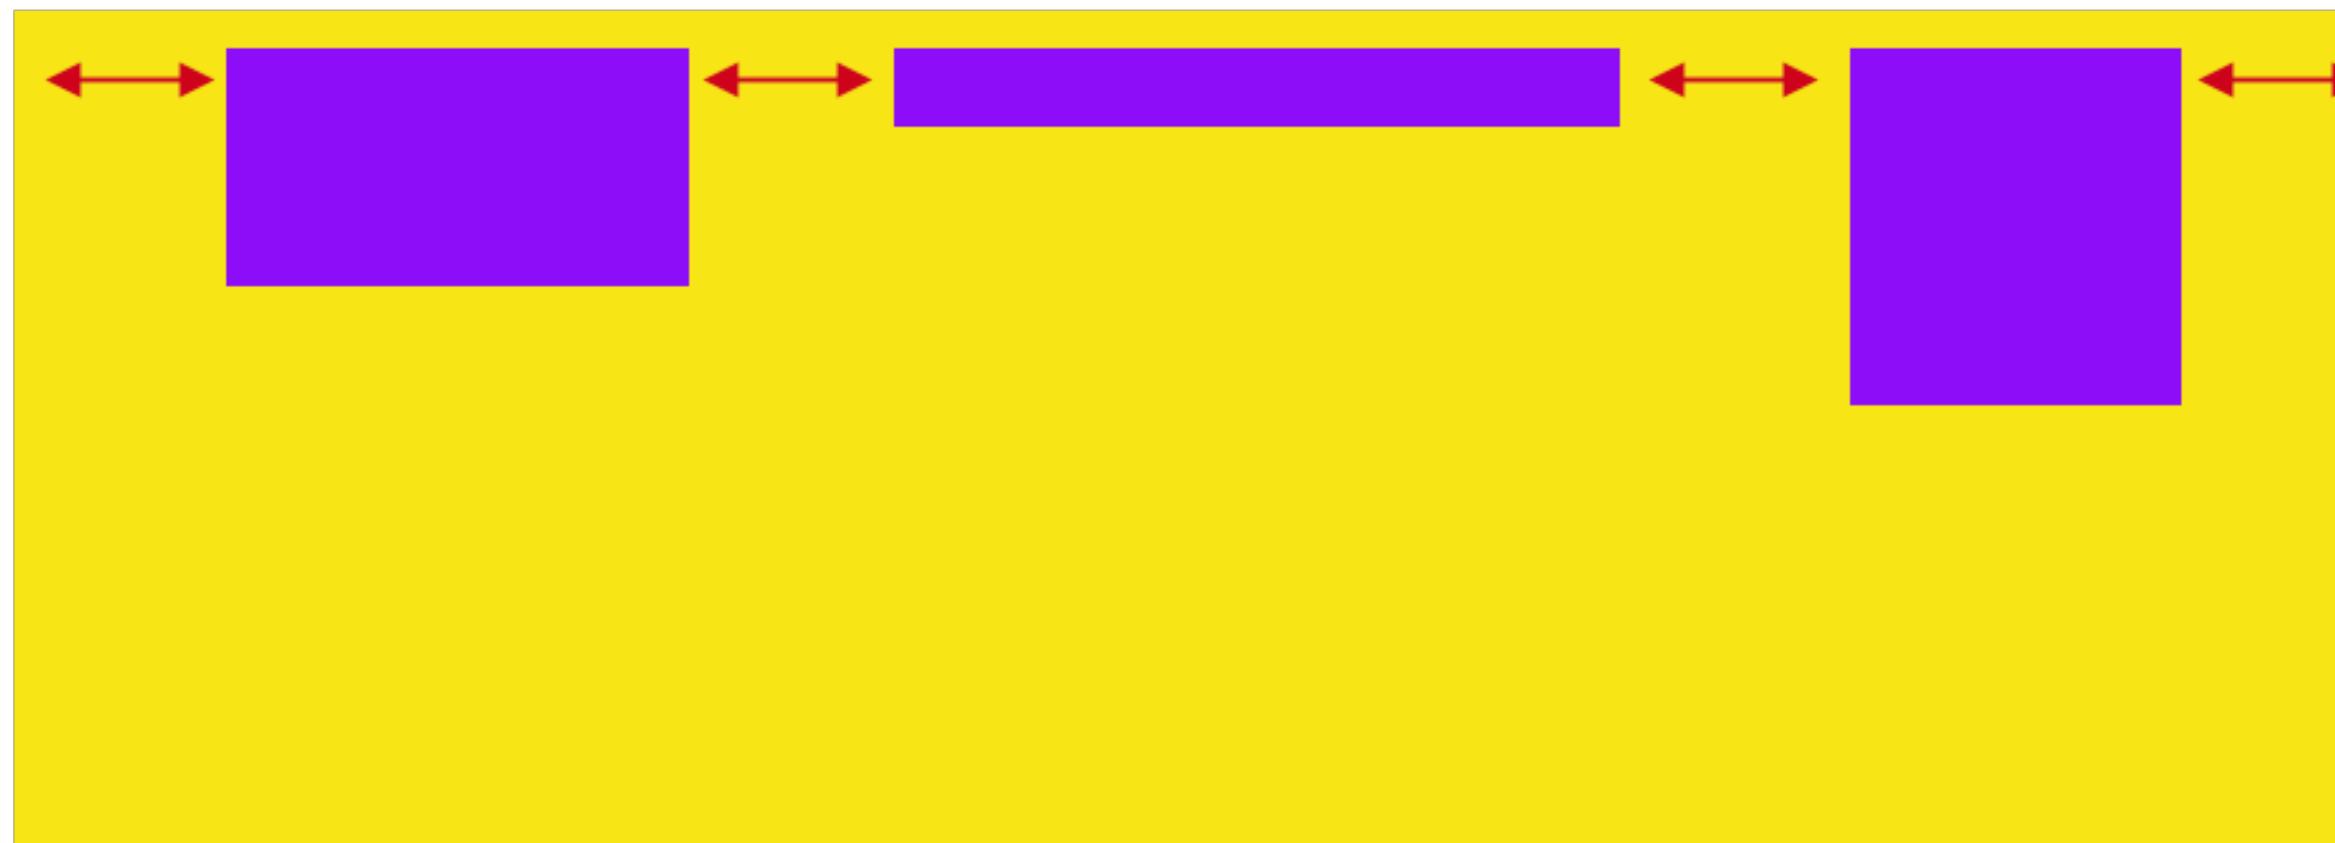

flex item

flex[↑] box

```
.flex {  
  display: flex;  
}
```

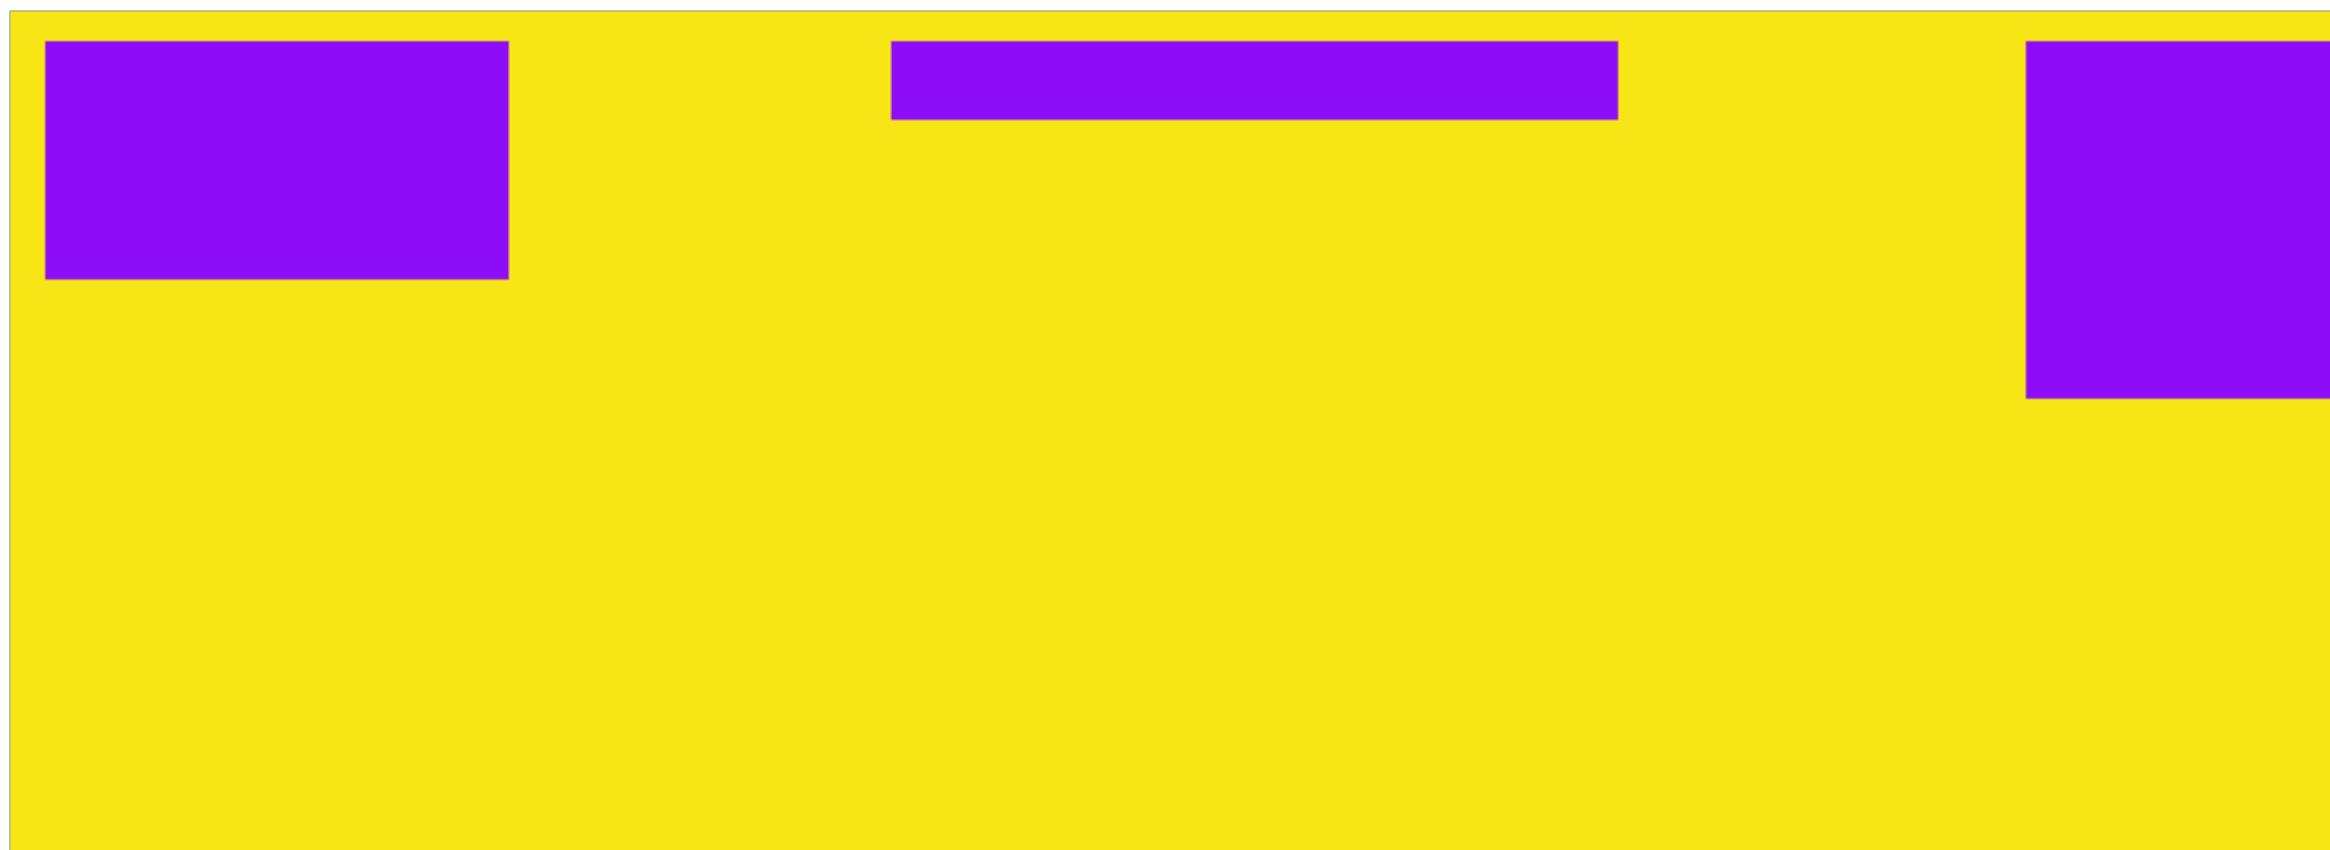

Using Flexbox.

```
.flex {  
  display: flex;  
  justify-content: space-around;  
}
```

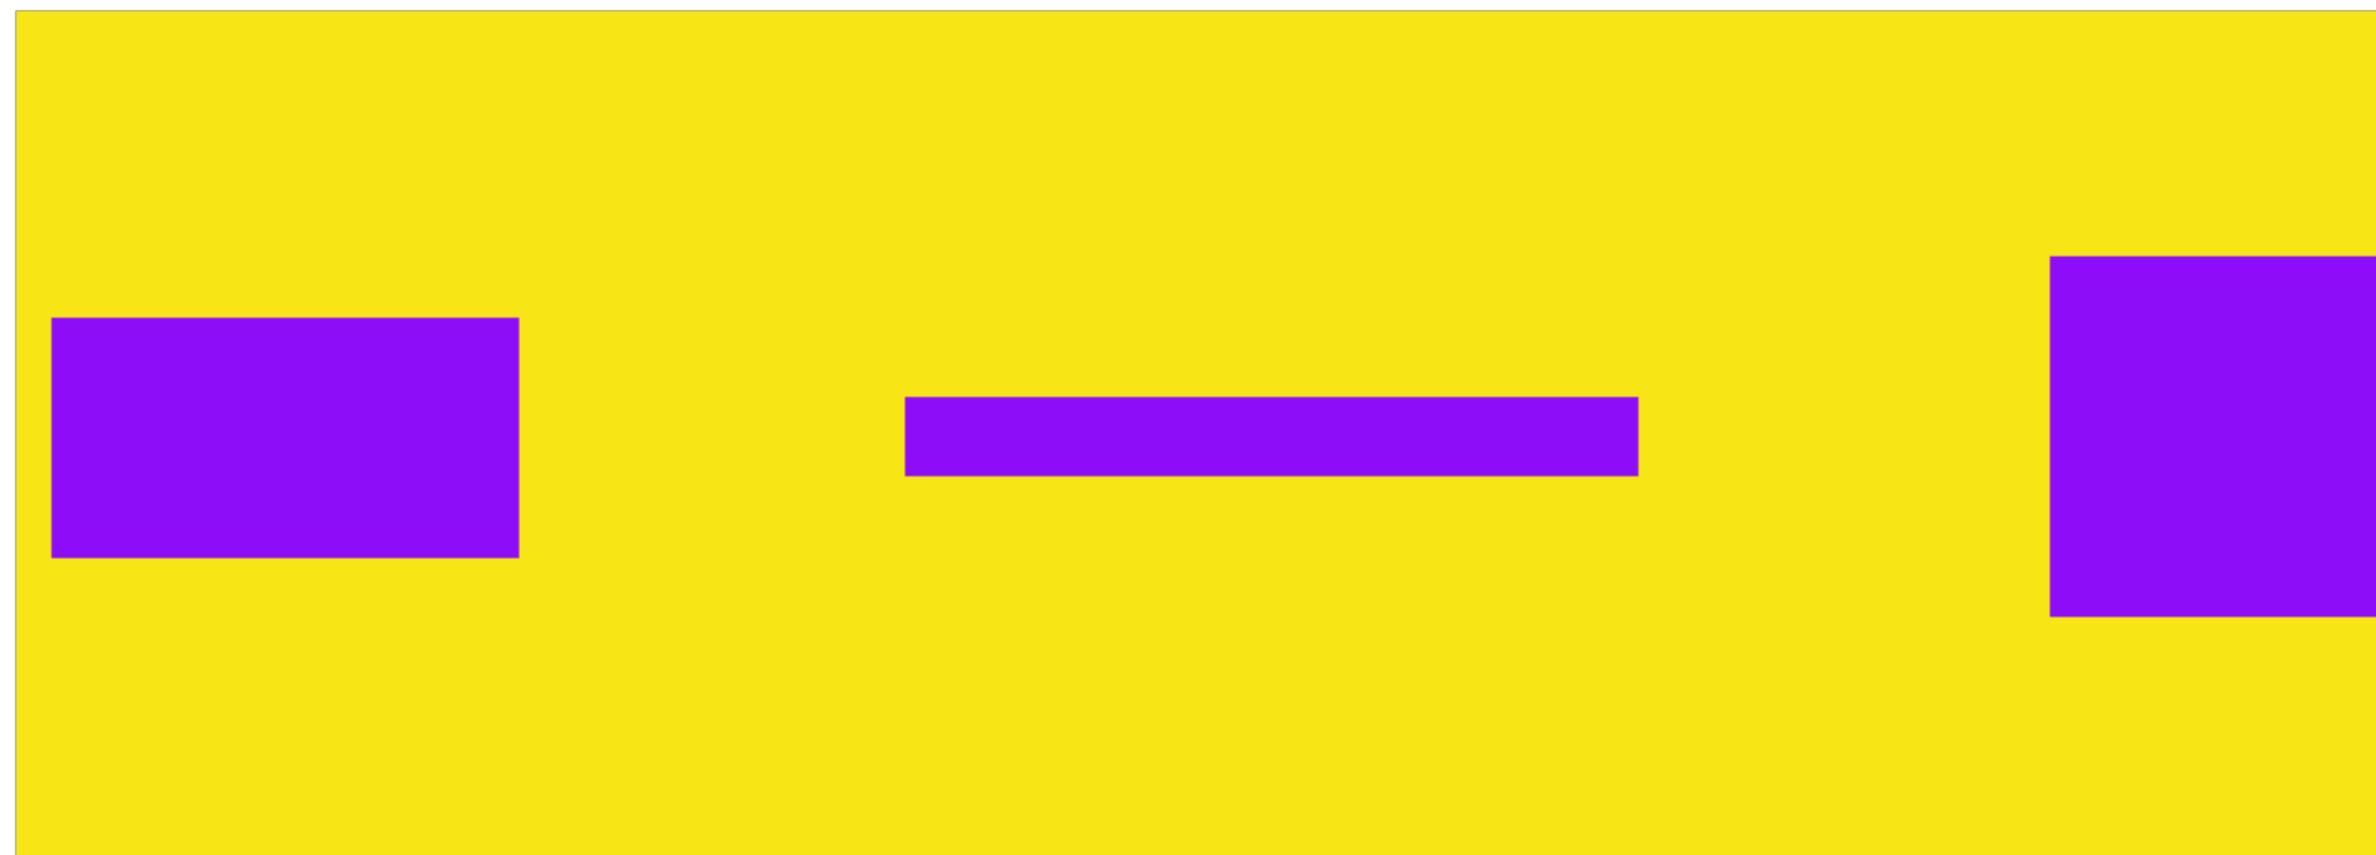

Using Flexbox.

```
.flex {  
  display: flex;  
  justify-content: space-between;  
}
```

Using Flexbox.

```
.flex {  
  display: flex;  
  justify-content: space-between;  
  align-items: center;  
}
```

Using Flexbox.

```
.flex-item {  
  flex: 0 0 200px;  
}  
  
.flex-body {  
  flex-grow: 1;  
}
```
